# Sizzle Sentences

10 fill-in-the-blank, done-for-you  
phrases that resonate + get your  
readers excited to buy

A  
Copy Luv  
mini-guide

Hey there, Hot Stuff.

You grabbed this guide because you want 10 fill-in-the-blank Sizzle Sentences.

Perfect. That's exactly what you're going to get.

But first...

You'll notice that a number of these "Sizzle Sentences" aren't... well... they're not grammatically complete sentences.

That's because copywriting doesn't NEED grammatically complete sentences.

But you'll also notice they don't really make sense if you just throw them randomly into the middle of a paragraph. They're kind stand-alone entities.

So here's **WHERE** you can use these phrases...

- In headlines
- As article titles
- As bullet points (especially bullet points meant to sell something)

Ready? Let's get sizzling!

xoxo,  
Cheryl
